Education

- 2022 – 2026 **B.E., Vivekanand Education Society's Institute of Technology**, Computer Engineering. (CGPA - 9.35)
- 2020 – 2022 **HSC, Sathaye College of Science**, (Percentage - 82%).
- 2020 **SSC, Holy Family High School**, (Percentage - 93%).

Projects

Chrono CLI **AWS Cloud-Based Version Control & System State Management**, Self-initiated and managed

- Developed a CLI tool to manage file versions and system states using AWS services like S3, EC2, DynamoDB, and EBS.
- Implemented efficient snapshotting and secure user authentication using JWT and MongoDB.

AttendSmart **Automatic Attendance System**, Self-initiated and managed

- Created a location-based attendance system using GPS to automate presence tracking.
- Built a mobile/web app to eliminate manual errors through real-time geolocation validation.

FedSecure-MentalHealth **Multi-Agent Privacy-Orchestrated Framework for Secure Multi-modal Federated Learning**, BE Major Project, Team of 4

- Built a federated learning system for mental health assessment across video, audio, and text using MentalBERT, with a Rust gRPC orchestration server and Python client/aggregator agents implementing FedAvg, FedProx, SCAFFOLD, FedAdam, and FedYogi.
- Engineered a privacy and audit layer combining DP-SGD (Opacus, RDP accounting), AES-GCM encryption with HKDF key isolation, mTLS (RSA-4096), and an HMAC-chained tamper-evident audit ledger.

Skills

Languages & Libraries Python, JavaScript, Pandas, NumPy, Matplotlib, Seaborn, Java, C, C++
Frameworks & Tools TensorFlow, scikit-learn, Flask, ReactJS

Skills (continued)

Databases	■	MongoDB, Firebase, MySQL
Version Control	■	Git, GitHub
Soft Skills	■	Adaptability, Teamwork, Problem Solving, Communication

Employment History

May 2025 - Present	■	Intern, VESIT (College Project), Chembur, India	• Extracted and analyzed financial data from Tracxn, YouTube transcripts, and news sources for market insight generation. • Built ML pipelines with DeepSeek, improving trend inference accuracy through research-driven feature engineering.
July 2023 – September 2023	■	Intern, Academor, Virtual	• Developed a machine learning-based loan prediction system aligned with efficiency and cost objectives. • Defined project goals and established performance tracking for solution effectiveness.

Certifications

2025	■	AWS Academy Graduate. Awarded by AWS.
2024	■	Networking Basics. Awarded by Cisco.
2023	■	Computer Graphics. Awarded by NPTEL.
